Blue Distinction

Centers for Bariatric Surgery®

Directory of Providers

Your Participating Provider Directory

This Provider Directory is your guide to facilities that have been designated as Blue Distinction Centers for Specialty Care[®]. We are continually adding providers to this list, so if you do not see a particular healthcare provider listed, you need additional information regarding a provider or you have any questions about your specific benefits, please call the customer service number on the back of your identification card.

This printed directory is organized by state and city for your convenience. A provider's participation in the program is subject to change. To verify this information, please contact the provider before you receive medical services.

If this is an emergency (for example, if you are having chest pain), please proceed to the nearest healthcare facility with an emergency department.

Blue Distinction[®]

Blue Distinction is an innovative quality designation that helps consumers find medical facilities that have demonstrated expertise in select procedures. Blue Distinction recognizes facilities that meet objective, evidence-based thresholds for clinical quality, developed in collaboration with expert physicians and medical organizations. These designated facilities are subject to periodic reevaluation; reassessing their structure, processes and aggregate patient outcomes.

Blue Distinction Centers for Specialty Care[®]

Blue Distinction's goal is to give consumers in need of specialty care credible information to make more effective healthcare decisions, thus delivering better value to Blue Cross and Blue Shield members.¹ The Blue Distinction program examines evidence-based quality measures, processes and aggregate outcomes for clinical care. At the core of Blue Distinction are the Blue Distinction Centers for Specialty Care (Blue Distinction Centers), initially launched in 2006. Areas covered by this program include bariatric surgery, cardiac care, complex and rare cancers, knee and hip replacement, spine surgery and transplant.

There is great variation in terms of how specialty care patients are evaluated and treated. Blue Distinction Centers help consumers identify facilities that met quality-focused criteria determined in collaboration with medical experts across the country, at national and local levels. These selection criteria help to identify facilities that are staffed appropriately and are fully integrated to support the goals of increased patient health and safety.

Blue Distinction Centers for Specialty Care programs provide a framework for better-informed healthcare choices, thus delivering better value to Blue members.

¹ Some Blue companies may already participate in local bariatric programs. The Blue Distinction Centers for Bariatric Surgery do not disrupt or replace these existing programs. Blue members may not necessarily be required to use institutions that are part of this program.

Blue Distinction Centers for Bariatric Surgery[®]

The aim of the Blue Distinction Centers for Bariatric Surgery is to enhance the overall quality of care bariatric surgery patients receive, and thereby deliver better value for Blue Plan members. Facilities designated as Blue Distinction Centers for Bariatric Surgery have dedicated teams that provide a full range of bariatric surgical care services, including inpatient care, post-operative care, follow-up and patient education.

The selection criteria used in designating Blue Distinction Centers for Bariatric Surgery were developed in collaboration with expert physicians and medical organizations, including the American College of Surgeons (ACS), American Society for Metabolic and Bariatric Surgery (ASMBS) and the Surgical Review Corporation (SRC).² Potential Blue Distinction Centers submit clinical data to establish that they meet our selection criteria, which include:

- an established bariatric surgery program, actively performing these procedures for the most recent 12-month period and performing a required minimum volume of 125 such surgeries annually
- appropriate experience of its bariatric surgery team
- an acute care inpatient facility, including intensive care and emergency services
- full accreditation by a Centers for Medicare and Medicaid Services (CMS)-deemed national accreditation organization
- a comprehensive quality management program

To see a list of the specific selection criteria for the Blue Distinction Centers for Bariatric Surgery, please visit www.bcbs.com/bluedistinction.

The facilities listed herein are independent organizations that provide care and treatment to Blue Cross and Blue Shield members. Blue Cross and Blue Shield Association and its Member Plans do not provide healthcare services or practice medicine. Hospitals, physicians and other healthcare practitioners are responsible for medical judgments and related treatments. Blue Cross and Blue Shield Association and its Member Plans are not liable for any act or omission, including negligence, committed by any independent contracted healthcare professional or hospital, nor are they responsible for any medical outcome achieved or not achieved as a result of treatment. The individual Blue Cross and Blue Shield companies are independent licensees of the Blue Cross and Blue Shield Association.

Note: Designation as Blue Distinction Centers means these facilities' overall experience and aggregate data met objective criteria established in collaboration with expert clinicians' and leading professional organizations' recommendations. Individual outcomes may vary. To find out which services are covered under your policy at any facilities, please call your local Blue Cross and/or Blue Shield Plan; and call your provider before making an appointment, to verify the most current information on its Network participation and Blue Distinction status. Neither Blue Cross and Blue Shield Association nor any of its Licensees are responsible for any damages, losses, or non-covered charges that may result from using this website or receiving care from a provider listed in this website.

² These organizations have provided information and input, but do not formally endorse the Blue Distinction Centers program.
