

## Blue Distinction Centers for Transplants® Program Selection Criteria for 2010 Mid-Point Designations

To qualify as a Blue Distinction Center for Transplants® (BDCT), each facility must satisfy BDCT's quality based selection criteria. BDCT's detailed Request for Information (RFI) survey examines the facility's clinical structure, processes, and outcomes for transplant services, as well as certain responses to the United Network for Organ Sharing (UNOS) Standardized RFI Transplant Administrative Survey, UNOS Program Information RFI, and UNOS Scientific Registry of Transplant Recipients (SRTR) Experience Data Part F. A mid-level description of the BDCT selection criteria for BDCT's Pancreas Transplant category appears below; for more detail, contact the BDCT Administrator at [bdcadmins@bcbsa.com](mailto:bdcadmins@bcbsa.com). Additional quality factors may impact a local BCBS company's decision to invite a facility to participate in the BDCT RFI. Successful facilities then undergo an on-site inspection by BDCT's clinical review team. The BDCT designation process is complete after the facility enters a BDCT Participation Agreement, through which it provides global pricing for transplants (includes hospital, professional, and other provider services) and agrees to follow certain administrative requirements. Once awarded, BDCT designation is contingent on each facility's ongoing compliance with BDCT selection criteria. All BDCT facilities resubmit clinical data every eighteen months and undergo on-site inspections for all new programs and every six years for designated programs.\*

### PANCREAS TRANSPLANT

CATEGORY	RFI#	CRITERIA DESCRIPTION	Threshold	2010 Core Points
<b>PROCESS</b>				
Living Donor Programs	UNOS	Have developed policies/procedures/ protocols to address: <ul style="list-style-type: none"> <li>- all phases of the living donation process,</li> <li>- the duties and responsibilities of the Independent Donor Advocate,</li> <li>- the medical evaluation of the potential living donor, and</li> <li>- the Informed Consent for the Donor Evaluation Process</li> </ul> as defined by CMS and UNOS bylaws.		Informational
Cardiac Assessment	BDCT	Pre-transplant patients are evaluated by a cardiologist	Yes	1
<b>OUTCOMES</b>				
Volume	UNOS SRTR	Actively performing SPK, PAK/PTA transplants, primarily SPK	<b>TOTAL</b> ≥ 16 <u>SPK</u> , PAK/PTA over 2 years with ≥ 6 SPK in each of the 2 calendar years and ≥ 8 PAK/PTA/SPLK over 2 years	Required
		Actively performing SPK, PAK/PTA transplants, primarily PAK/PTA	<b>TOTAL</b> ≥ 16 SPK, PAK/PTA over 2 years with ≥ 5 SPK over 2 years and ≥ 6 PAK/PTA in each of the 2 calendar years	Required

\*The BDCT designation is removed from facilities that no longer meet the selection criteria, which are reevaluated for restoration on a case-by-case basis, provided that increasing improvement is shown.

Note: Designation as Blue Distinction Centers means these facilities' overall experience and aggregate data met objective criteria established in collaboration with expert clinicians' and leading professional organizations' recommendations. Individual outcomes may vary. To find out which services are covered under your policy at any facility, please call your local Blue Cross and/or Blue Shield Plan.

CATEGORY	RFI#	CRITERIA DESCRIPTION	Threshold	2010 Core Points
Survival*	SRTR	One-month and one-year patient and graft survival must not be statistically lower than the expected outcome as reported by SRTR for the most recent timeframe available.	Yes	Required
Re-transplants	UNOS SRTR	Overall 1-month and 1-year <b>SPK</b> program re-transplant rate	1mo $\leq$ 0.37% 1yr $\leq$ 1.4%	2 2
		Overall 1-month and 1-year <b>PAK/PTA</b> program re-transplant rate	1mo $\leq$ 0.9% 1yr $\leq$ 2.7%	2 2
Rate of Graft Thrombosis	BDCT	Program tracks and collects data.	Yes	Required
		Rate of Pancreas Graft Non-Function Thrombosis within 7 days of Transplant for SPK program	$\leq$ 5%	4
		Rate of Pancreas Graft Non-Function Thrombosis within 7 days of Transplant for PAK/PTA program	$\leq$ 5%	4
Death rate per year on waitlist	SRTR	Death rate per year on waitlist is not statistically higher than the expected as reported by SRTR for the most recent timeframe available	Statistically Lower or Not statistically higher	1
			Statistically Higher	0
