Centers for Substance Use Treatment and Recovery

## Directory of Providers

Updated: July 27, 2022

## Your Participating Provider Directory

This Provider Directory is your guide to providers that have been designated as Blue Distinction Centers for Substance Use Treatment and Recovery. We are continually updating this list. If you do not see a particular healthcare provider listed, need additional information regarding a provider or have any questions about your specific benefits, please call the customer service number on the back of your identification card.

A provider's participation in the program is subject to change. To verify this information, please contact the provider before you receive medical services.

*If this is an emergency, please proceed to the nearest healthcare provider with an emergency department.*

## Blue Distinction Centers

When it comes to your health and healthcare, the choices you make matter. Blue Distinction Centers can help you and your doctor have a better informed discussion about finding the right provider for the specific procedure you need.

### Blue Distinction Centers

Blue Distinction Centers are nationally designated facilities that show a commitment to delivering improved patient safety and better health outcomes, based on objective measures that were developed with input from the medical community and leading accreditation and quality organizations.

Blue Distinction Centers (BDC) met overall quality measures for patient safety and outcomes, developed with input from the medical community. A Local Blue Plan may require additional criteria for providers located in its own service area; for details, contact your Local Blue Plan. Blue Distinction Centers+ (BDC+) also met cost measures that address consumers' need for affordable healthcare. Each provider's cost of care is evaluated using data from its Local Blue Plan. Providers in CA, ID, NY, PA, and WA may lie in two Local Blue Plans' areas, resulting in two evaluations for cost of care; and their own Local Blue Plans decide whether one or both cost of care evaluation(s) must meet BDC+ national criteria.
